PROFILE

A motivated and skilled final-year student at Dedan Kimathi University seeking an internship opportunity to apply my knowledge of HTML, CSS, JavaScript, and PHP. I am eager to learn from experienced professionals while contributing fresh ideas and perspectives to your team. I am confident in my ability to adapt and learn quickly, and I am excited about the prospect of gaining hands-on experience in a professional setting.

EDUCATION

BSc Computer Science   Oct 2021 - Present
Dedan Kimathi University of Technology, Nyeri

EXPERIENCE

Blog Website
Developed a personal blog website using HTML, CSS, JavaScript, and PHP. The site features various pages including the homepage, about page, contact page, and individual post pages. Users can view posts, add posts, and edit their posts. It also has an admin dashboard to manage users and posts.

Medical Website
Collaborated with a team of developers to create a medical website that allows patients to connect with healthcare providers online. Patients can submit queries regarding their symptoms or general health concerns, which are then reviewed by licensed physicians. Additionally, users have access to resources related to common illnesses, wellness tips, and medication information.
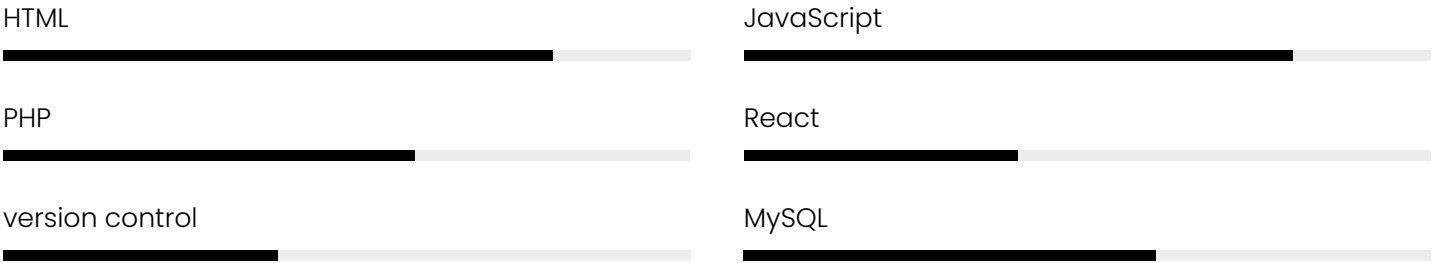

Venue Booking System
Participated in developing a booking venue website that enables users to browse through different event spaces, filter results based on price and availability, read customer reviews, and make reservations. Utilized HTML, CSS, JavaScript, and PHP to build this platform, integrating third-party APIs for payment processing and Google Maps integration.
